General information:

All products are intended for research purposes only and are not intended for in vivo use in humans or animals. Peptide 2.0, Inc. shall not be liable for any damages that arise from any inappropriate use or distribution of products. Customers carry out any research activities involving products at their own risk.

All custom peptide synthesis orders are subject to potential synthesis difficulties. Specified purities refer to HPLC chromatograms obtained with linear gradients and detection at 220 nm. There is no charge for failed peptides. You will be charged only for peptides that have been successfully completed.

Third Party Rights:

Customers are herewith expressly informed that Peptide 2.0 manufactures products according to the specifications as defined by customer in the respective purchase order. Peptide 2.0, Inc. does not carry out any research on whether the products requested by customer and subsequently produced by Peptide 2.0, Inc. are free of any third party rights, in particular third party intellectual property rights. Therefore, third party rights, including third party intellectual property rights such as patents, may exist in products purchased by the customer. Peptide 2.0 Inc. guarantees confidentiality of all information provided by the customer.
